## § 2

### Interest

*Interest:* The Securities do not bear interest.

## § 3

### Redemption, Automatic Early Redemption

- (1) *Redemption:* The Securities shall be redeemed either

- (i) if no Barrier Event has occurred or if a Barrier Event has occurred and R (final) is equal to or greater than the Strike by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions, or
  - (ii) if a Barrier Event has occurred and if R (final) is lower than the Strike by delivery of the Underlying in a quantity expressed by the Ratio per Security pursuant to the provisions of § 6 of the Special Conditions. If the Ratio leads to a fraction of the Underlying, a cash amount expressed in the Specified Currency will be paid instead in the amount of the value of the fraction of the Underlying (the "**Supplemental Cash Amount**") which is calculated from the Reference Price on the Final Observation Date multiplied by the fraction of the Underlying and multiplied by FX (final).
- (2) *Automatic Early Redemption (k):* If an Early Redemption Event (k) has occurred the Securities will be automatically early redeemed on the immediately following Early Payment Date (k) by payment of the respective Early Redemption Amount (k) on the respective Early Payment Date (k) pursuant to the provisions of § 6 of the Special Conditions.

#### § 4

##### **Redemption Amount, Automatic Early Redemption Amount**

- (1) *Redemption Amount:* The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:
- If no Barrier Event has occurred the Redemption Amount corresponds to the Maximum Amount.
  - If a Barrier Event has occurred and if R (final) is equal to or greater than the Strike, the Redemption Amount corresponds to the Nominal Amount.
- (2) *Early Redemption Amount:* The Early Redemption Amount (k) for an Early Payment Date (k) is specified in § 1 of the Product and Underlying Data.

#### § 5

##### **Issuer's Extraordinary Call Right**

*Issuer's extraordinary call right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter

that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

## § 6

### Payments, Deliveries

- (1) *Rounding:* The amounts payable under the Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).
- (5) *Delivery:* The Delivery of the Underlying and the payment of a Supplemental Cash Amount shall be made within five Banking Days after the Final Payment Date (the "**Delivery Period**") to the Clearing System for credit to the accounts of the relevant depository banks of the Security Holders. All costs, incl. possible custody fees, exchange turnover taxes, stamp taxes, transaction fees, other taxes or levies (together the "**Delivery Costs**"), incurred as a result of the delivery of the Underlying, shall be borne by the respective Security Holder. Subject to the provisions of the Terms and Conditions, the Underlying shall be delivered at the Security Holder's own risk. If the Final Payment Date of a delivery or payment is not a Banking Day, such delivery or payment shall be made on the next following Banking Day. Such delay will not constitute any entitlement to interest or other payments. The Issuer shall not be obliged to forward to the Security Holders any notifications or documents of the issuer of the Underlying that were provided to the Issuer prior to such delivery of the Underlying, even if such notifications or other documents refer to events that occurred after delivery of the Underlying. During the Delivery Period the Issuer shall not be obliged to exercise any rights under the Underlying.
- (6) *Transaction Disturbance:* If, as determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB), an event outside of the Issuer's control, which results in the Issuer not being able to deliver the Underlying pursuant to the Terms and Conditions (a "**Transaction Disturbance**") and this Transaction Disturbance has occurred prior to delivery of the Underlying and continues to exist on the Final Payment Date, then the first day of the Delivery Period shall be postponed to the next Banking Day, on which no Transaction Disturbance exists. The Security Holders shall be notified accordingly pursuant to § 6 of the General Conditions. The Security Holders shall not be entitled to interest payment or other amounts, if a delay in the delivery of the Underlying occurs in accordance with this paragraph. The Issuer shall not be liable in this respect. In the event of a Transaction

Disturbance, the Securities may, in its reasonable discretion (§ 315 et seq. BGB) of the Issuer and the Calculation Agent be redeemed at the Cash Value of the Redemption Price. The "**Cash Value of the Redemption Price**" is an amount determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) on the basis of the stock exchange or market price of the Underlying on the Final Observation Date or, should such stock exchange or market prices not be available, the volume weighted average of the stock exchange or market prices in a representative period or, should such volume weighted average not be available, an amount determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

## § 7

### Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. The FX Observation Date (final) will be postponed accordingly.

If a FX Market Disruption Event occurs on a FX Observation Date, the respective FX Observation Date will be postponed to the next following FX Calculation Date on which the FX Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date or FX Observation Date, as the case may be, shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9<sup>th</sup> Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

Should the FX Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective FX. The FX required for the calculations or, respectively, specifications described in the Terms and Conditions shall be determined in accordance with prevailing market conditions at 10:00 a.m. Munich time) on this 9<sup>th</sup> Banking Day, taking into account the financial position of the Security Holders.

## § 8

### Adjustments, Type of Adjustment, Replacement Specification, Notifications, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment made to the Underlying Linked Derivatives by the Determining Future Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
  - (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner.
    - (i) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
    - (ii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
    - (iii) The adjustment envisaged by the Determining Futures Exchange is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
  - (c) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against

cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

- (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (4) below), every reference to Underlying in the Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange and required pursuant to the Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.
- (5) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

## § 9

### **New Fixing Sponsor, Replacement Exchange Rate, Legal Provisions**

- (1) *New Fixing Sponsor:* In the event that the FX Exchange Rate is no longer determined, reported and/or published by the Fixing Sponsor or, in case of a not only immaterial modification in the method of determination and/or publication of the FX Exchange Rate by the Fixing Sponsor (including the time of the determination, reporting and/or publication), the Calculation Agent has the

right to determine the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions on the basis of the determinations and publications by another person, company or institution (the "**New Fixing Sponsor**"). The Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) whether such event occurs and which other person, company or institution shall act as the New Fixing Sponsor (the "**New Fixing Sponsor**"). The New Fixing Sponsor and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case, any reference to the replaced Fixing Sponsor in the Terms and Conditions shall be deemed to refer to the New Fixing Sponsor.

(2) *Replacement Exchange Rate:* In the event that FX is no longer determined, reported and/or published, the calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of price of the FX determined, reported and/or published on the basis of another method, which will be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) (the "**Replacement Exchange Rate**"). The Replacement Exchange Rate and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case, any reference to the replaced FX in the Terms and Conditions shall be deemed to refer to the Replacement Exchange Rate.

(3) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

### What are the key risks that are specific to the Issuer?

**Risks related to the Issuer's financial situation:** Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

**Risks related to the Issuer's specific business activities:** Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

**General risks related to the Issuer's business operations:** Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

**Legal and regulatory risk:** Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

**Strategic and macroeconomic risk:** Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, a strong rise in energy costs and raw material prices, severe supply bottlenecks and further political uncertainties such as the tensions between the US and China about trade and Taiwan could lead to a more severe slowdown. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

### Section 3 – Key information on the Securities

#### What are the main features of the Securities?

##### Product Type, Underlying and form of the Securities

*Product Type:* Express Plus Securities with cash settlement or physical delivery (with date-related Barrier observation) (Quanto)

*Underlying:* Daimler Truck AG (ISIN: DE000DTROCK8)

The Securities are issued as bearer bonds within the meaning of § 793 German Civil Code (*Bürgerliches Gesetzbuch*). The Securities will be represented by a global note and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

##### Issuance, Nominal Amount and Term

The Securities will be issued on 06.10.2023 in Hungarian Forint (HUF) (the "**Specified Currency**"), with a Nominal Amount of HUF 100,000.00, as up to 20,000 Certificates. The Securities have a definite term.

##### Redemption of the Securities

###### **Automatic early redemption on the Early Payment Dates (k)**

The Securities will be redeemed early on the relevant Early Payment Date (k), if an Early Redemption Event (k) occurs. In this case, the Security Holder receives the respective Early Redemption Amount (k) on the respective Early Payment Date (k).

An Early Redemption Event (k) means that the Reference Price on the respective Observation Date (k) is equal to or greater than the Early Redemption Level (k).

Early Redemption Level (k) means the product of the Early Redemption Factor (k) and the Initial Reference Price.

k	Observation Date (k)	Early Payment Date (k)	Early Redemption Factor (k)	Early Redemption Amount (k)
1	01.10.2024	08.10.2024	100%	HUF 119,000.00
2	01.04.2025	08.04.2025	100%	HUF 128,500.00

###### **Redemption as at the Final Payment Date**

If the Securities are not redeemed early, the Securities will be redeemed on the Final Payment Date as follows:

- (A) A Barrier Event has not occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Maximum Amount.
- (B) A Barrier Event has occurred and the Final Reference Price is equal to or greater than the Strike. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Nominal Amount.
- (C) A Barrier Event has occurred and the Final Reference Price is lower than the Strike. The Security Holder receives delivery of the Underlying in a quantity expressed by the Ratio per Security. If the Ratio leads to a fraction of the Underlying, a cash amount expressed in the Specified Currency is paid instead. The cash amount will be adjusted by taking into account

movements in the exchange rate between the currency in which the Underlying is traded or published and the Specified Currency (Quanto).

### Additional definitions and product terms

Barrier means the product of the Barrier Level and the Initial Reference Price.

Barrier Event means that the Final Reference Price is lower than the Barrier.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Ratio means the quotient of the Nominal Amount and a product. The product will be calculated by multiplying the Strike with the fixing of the exchange rate between the Underlying Currency and the Specified Currency (Quanto).

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Barrier Level	Strike Level	Maximum Amount	Initial Observation Date	Final Observation Date	Final Payment Date
Closing price	80%	100%	HUF 138,000.00	04.10.2023	29.09.2025	06.10.2025

**Extraordinary termination right:** The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is finally ceased).

**Adjustment right:** The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying).

**Status of the Securities:** The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

### Where will the Securities be traded?

No application for the Securities to be admitted to trading has been made and no such application is intended.

### What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

**Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer:** The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

**Specific Risks related to the payment profile of the Securities:** There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

**Risks relating to Securities with physical delivery:** The risk of price losses of the Underlying does not end with its delivery but only with its sale by the Security Holder. There is no automatic sale of the delivered quantity of the Underlying.

**Risks arising from the Terms and Conditions of the Securities:** The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

### Melyek a kibocsátóra jellemző legfontosabb kockázatok?

**A Kibocsátó pénzügyi helyzetéhez kapcsolódó kockázatok:** Annak kockázata, hogy a HVB Csoport nem lesz képes fizetési kötelezettségeit teljeskörűen vagy esedékességkor teljesíteni, vagy elegendő likviditást szerezni, amikor szükséges, valamint hogy a likviditás csak magasabb kamatlábak mellett lesz elérhető, valamint annak a kockázata, hogy a bank csak diszkontált áron lesz képes értékesíteni a piacon a vagyontárgyait, likviditási problémákat okozhat a HVB Csoport számára, és ez azt eredményezheti, hogy csak korlátozottan lesz képes finanszírozni a tevékenységeit és teljesíteni minimális likviditási követelményeit.

**A Kibocsátó sajátos üzleti tevékenységéhez kapcsolódó kockázatok:** A HVB Csoport szokásos üzleti tevékenységéből eredő kockázatok, amely magában foglalja a hitelkockázatot a hitelezési üzletágban, a piaci kockázatot a kereskedési tevékenységben, valamint más üzleti tevékenységekből eredő kockázatokot, mint például a HVB Csoport ingatlan

kapcsolatos üzleti tevékenysége, hátrányos hatással járhatnak a HVB Csoport működési eredményeire, eszközeire és pénzügyi helyzetére.

**A Kibocsátó üzleti működéséhez kapcsolódó általános kockázatok:** Nem megfelelő vagy hibás belső folyamatok, rendszerek és emberek kockázata vagy külső események kockázata, az érintett feleknek a bankra vonatkozó megváltozott megítélése miatt adott negatív reakciójának kockázata, a bank jövőbeli hasznában bekövetkező váratlan, hátrányos változásokból eredő kockázatok, valamint a kockázati és/vagy haszon pozíciók koncentrációjából eredő kockázatok pénzügyi veszteségeket, a HVB leminősítését és a HVB Csoport üzleti kockázatának növekedését eredményezhetik.

**Jogi és szabályozási kockázat:** A HVB szabályozási és jogszabályi környezetének megváltozása magasabb tőke költségeket és azt eredményezheti, hogy a szabályozási követelmények megvalósítása megemeli a költségeket. A szabályozási követelmények, (adó) jogszabályok, szabályzatok, jogszabályi rendelkezések, megállapodások, kötelező gyakorlatok és etikai normák be nem tartása a HVB Csoport nyilvános megítélését, valamint eredmény- és pénzügyi helyzetét negatívan érintheti.

**Stratégiai és makrogazdasági kockázatok:** Az abból eredő kockázat, hogy a vezetés nem ismeri fel elég korán vagy nem értékeli helyesen a jelentős változásokat vagy trendeket a bank környezetében, valamint a németországi negatív gazdasági fejleményekkel és a nemzetközi pénzügyi és tőkepiacok fejleményeivel kapcsolatos kockázatok negatív hatással bírhatnak a HVB Csoport eszközeire, kötelezettségeire, pénzügyi helyzetére és nyereségére vagy veszteségére. Különösen az orosz-ukrán konfliktus következményei, az energiaköltségek és a nyersanyagárak erőteljes emelkedése, súlyos ellátási szűk keresztmetszetek és további politikai bizonytalanságok, mint például az Egyesült Államok és Kína közötti feszültségek a kereskedelem és Tajvan tekintetében súlyosabb kereskedelmi lassuláshoz vezethetnek. Ezen túlmenően, ha a fent említett kockázatok bármelyike megvalósul, a pénzügyi és tőkepiacokon zavarok jelentkezhetnek.

### 3. Szakasz – Az Értékpapírokra vonatkozó kiemelt információk

#### Az Értékpapírok visszaváltása

##### Automatikus lejárat előtti visszaváltás a Korai Kifizetési Napokon (k)

Amennyiben Korai Visszaváltási Esemény következik be, az Értékpapírok lejárat előtti visszaváltására kerül sor a megfelelő Korai Kifizetési Napon (k). Ebben az esetben az Értékpapír-tulajdonos a Korai Visszaváltási Összeget (k) kapja meg a megfelelő Korai Kifizetési Napon (k).

Korai Visszaváltási Esemény az, ha a megfelelő Megfigyelési Napon (k) a Referenciaár a megfelelő Korai Visszaváltási Szinttel (k) egyenlő vagy annál magasabb.

Korai Visszaváltási Szint (k): a Korai Visszaváltási Tényező (k) és az Induló Referenciaár szorzata.

k	Megfigyelési Nap (k)	Korai Kifizetési Nap (k)	Korai Visszaváltási Tényező (k)	Korai Visszaváltási Összeg (k)
1	2024.10.01.	2024.10.08.	100%	119,000.00 HUF

##### Visszaváltás a Végző Kifizetési Napon

Ha az Értékpapírok lejárat előtti visszaváltására nem kerül sor, az Értékpapírok visszaváltására a Végző Kifizetési Napon kerül sor a következők szerint:

- Nem következett be Korlátozási Esemény. Az Értékpapír-tulajdonos a Visszaváltási Összeget kapja meg a Meghatározott Pénznemben, amely megegyezik a Maximum Összeggel.
- Korlátozási Esemény következett be és a Végző Referenciaár nagyobb, mint a Kötési Árfolyam vagy azzal megegyezik. Az Értékpapír-tulajdonos a Visszaváltási Összeget kapja meg a Meghatározott Pénznemben, amely megegyezik a Névértékkel.

(C) Korlátozási Esemény következett be és a Végző Referenciaár kisebb, mint a Kötési Árfolyam. Az Értékpapír-tulajdonos a Mőgöttes Eszköz átadását kapja meg, az Arány szerint Értékpapíronként meghatározott mennyiségben. Ha az Arány a Mőgöttes Eszköz tört részéhez vezet, akkor a Meghatározott Pénznemben kifejezett készpénz összeg kifizetésére kerül sor helyette. A készpénz összeg kiegészítésre kerül a Meghatározott Pénznem és azon pénznem közötti árfolyamváltozások figyelembevételével, amelyen a Mőgöttes Eszköz kereskedése vagy közzététele történik (Quanto).

### Kiegészítő meghatározások és termék feltételek

Korlátozás: a Korlátozási szint és az Induló Referenciaár szorzata.

Korlátozási Esemény: a Végző Referenciaár alacsonyabb, mint a Korlátozás.

Végző Referenciaár: a Végző Megfigyelési Napon meghatározott Mőgöttes Eszköz Referenciaára.

Induló Referenciaár: az Induló Megfigyelési Napon meghatározott Mőgöttes Eszköz Referenciaára.

Arány: a Névérték és egy szorzat hányadosa. A szorzat úgy kerül kiszámításra, hogy a Kötési Árfolyamot meg kell szorozni a Mőgöttes Pénznem és a Meghatározott Pénznem között rögzített árfolyammal (Quanto).

Kötési Árfolyam: a Kötési Árfolyam Szintje és az Induló Referenciaár szorzata.

Referenciaár	Korlátozási Szint	Kötési Árfolyam Szint	Maximum Összeg	Induló Megfigyelési Nap	Végző Megfigyelési Nap	Végző Kifizetési Nap
Záróárfolyam	80%	100%	138,000.00 HUF	2023.10.04.	2025.09.29.	2025.10.06.

**Rendkívüli megszüntetési jog:** Bizonyos Visszahívási Események bekövetkezésekor a Kibocsátó jogosult rendkívüli módon megszüntetni az Értékpapírokat, az Értékpapírok valós piaci értékén (például, ha a Mőgöttes Eszköz árjegyzése végleg megszűnik az irányadó tőzsdén).

**Korrektíós jog:** Korrektíós Esemény bekövetkezése esetén a Számítási Ügynök módosíthatja az Értékpapírokra vonatkozó Feltételeket (például, a Mőgöttes Eszköz kibocsátó társaság vállalati intézkedéseket hajt végre).

**Az Értékpapírok státusza:** Az Értékpapírok szerinti kötelezettségek a Kibocsátónak közvetlen és nem biztosított kötelezettségét jelentik, és azok a Kibocsátó más nem biztosított és nem hátrasorolt kötelezettségeivel egyenrangúak. Szanalás (feltőkésítés) esetén, az Értékpapírok – a felelősségi rendszeren belül – a Kibocsátó valamennyi, nem elsőbbségi kötelezettsége után kerülnek figyelembe vételre.

### Hol kereskednek az Értékpapírokkal?

Az Értékpapírokra vonatkozóan nem került benyújtása kereskedési rendszerbe történő bevezetés iránti kérelem és nincs tervezve ilyen kérelem benyújtása.

### Melyek az Értékpapírokra vonatkozó legfontosabb kockázatok?

Az Értékpapírokra vonatkozó sajátos kockázati tényezők, amelyek a Kibocsátó szerint lényegesek, a következőkben kerülnek bemutatásra:

**Az Értékpapírok rangsorolásához és jellegzetességeihez kapcsolódó kockázatok a Kibocsátó csődbe menetele esetén:** Az Értékpapír-tulajdonosok viselik a Kibocsátó fizetéképtelenségének a kockázatát. Ezen felül, az Értékpapír-tulajdonosok a Kibocsátóra vonatkozó szanalási intézkedések hatálya alá kerülhetnek, amennyiben a Kibocsátó csődbe megy vagy valószínű, hogy csődbe fog menni.

**Az Értékpapírok fizetési profiljához kapcsolódó kockázatok:** Külön kockázatot jelent, hogy a Mőgöttes Eszköz ára csökken, amelynek következtében az Értékpapír-tulajdonos jelentős veszteséget szenved el a befektetett tőkájével kapcsolatban. A befektetett tőke teljes elvesztése is lehetséges. A Mőgöttes Eszköz árának esése negatív hatással bír az Értékpapír-tulajdonosra, különösen akkor, ha Korlátozási Esemény következik be.

**Fizikailag átadásra kerülő Értékpapírokhoz kapcsolódó kockázatok:** A Mőgöttes Eszköz árfolyamvesztésének kockázata nem ér véget annak átadásával, hanem csak akkor, amikor a Mőgöttes Eszköz az Értékpapír-tulajdonos eladja. Nem kerül sor automatikusan az adott mennyiségben átadott Mőgöttes Eszköz eladására. **Az Értékpapírok Feltételeiből származó kockázatok:** Az Értékpapír-tulajdonos viseli annak kockázatát, ha az Értékpapírok a Kibocsátó által megszüntetésre kerülnek. Az Értékpapírok visszaváltására ekkor az Értékpapírok valós piaci értékén kerül sor. Ez az érték alacsonyabb lehet annál, mint az az összeg, amit az Értékpapír-tulajdonos akkor kapott volna, ha nem került volna sor az Értékpapírok rendkívüli megszüntetésére.

Ezen felül, az Értékpapír-tulajdonosok viselik az újbóli befektetés kockázatát. Továbbá, az Értékpapír-tulajdonosok viselik a veszteség kockázatát, amennyiben a Feltételek kiigazításra kerülnek vagy piaci zavar következik be.

**Az Értékpapírokba történő befektetéshez, az Értékpapírok tartásához és eladásához kapcsolódó kockázatok:** Az Értékpapír-tulajdonosok viselik annak kockázatát, hogy az Értékpapírok piaci értéke azok futamideje alatt jelentős ingadozások

alá eshet, és hogy az Értékpapír-tulajdonos nem képes meghatározott időben vagy meghatározott áron megvenni vagy eladni az Értékpapírokat.

**Részvényekhez, mint Mögöttes Eszközhöz kapcsolódó kockázatok:** Az Értékpapír-tulajdonosok számára az Értékpapírok hasonló kockázatokkal járnak, mint a Mögöttes Eszközként meghatározott részvénybe történő közvetlen befektetés. Egy részvény ára ugrásszerűen eshet vagy értéktelenné válhat, például a részvény kibocsátójának fizetési képessége miatt.

Továbbá, a Kibocsátónak tudomása lehet a Mögöttes Eszközhöz kapcsolódó nem nyilvános információkról.
